# Duhok Polytechnic University

Progress Comes from  
 Nurtured Mind and  
 Skilled Hand

## Introduction

The story of the Duhok Polytechnic University (DPU) can be traced back to the founding of the **Duhok Technical Institute (DTI)** in 1988. It was the first publicly funded, post-secondary institution in Duhok Governorate to provide application-oriented education. Additionally, DTI played an important role in supporting the establishment of the University of Duhok (UoD) in 1992 and Nawroz University in 2004.

Located at the center of Duhok city, the DTI started with 75 students in two departments only (Surveying and Accounting). In 1989 the number of students increased to 531 with the addition of another two departments (Mechanics and Computer Systems). In order to serve the community at different districts around Duhok city, additional seven Technical Institutes (TI) granting Diploma were established up to 2011, namely Akre TI (2000), Zakho TI (2002), Amedi TI (2003), Shekhan TI (2008), Shingal TI (2009) Bardarash TI (2010) and Duhok Administrative TI (2011).

However, on the **7<sup>th</sup> of August 2012**, the Kurdistan Regional Government (KRG) approved the university status to the seven TIs under the name of Duhok Polytechnic University. In 2013 two **Technical Colleges (TC)** were established (Engineering and Administration). Recently, in May 2014 Akre TC and TC of Health in Shekhan were approved as well.

### Statistics of 2013-2014

Number of Students: 5596  
 Number of Graduates Since Founded: 17201  
 Number of Employees: 1268  
 Number of Teaching staff: 238  
 Number of Contracted Faculty: 17

## Vision

Be a leading university in polytechnic education, training and research, and working for the development of Kurdistan Region- Iraq.

## Mission

Preparing efficient technical graduates and researchers with distinct levels of knowledge and technological innovation to achieve the international standards of quality assurance in accordance with the labor market needs in public and private sectors.

## Objectives

- 1- Providing technical education to people of Kurdistan Region and Iraq in general.
- 2- Keeping up with the latest achievements and developments in the fields of science and technology.
- 3- Preparing technical professionals in various fields to fulfill market needs and help achieve scientific, economic and social development goals.
- 4- Strengthening scientific research focusing on community needs and problems.
- 5- Improving work and educational environment of the university.
- 6- Strengthening mutual cultural and academic relations with national and international institutions.
- 7- Promoting postgraduate education in various technical fields.
- 8- Improving quality in academic programs and organizational management.

## Departments

The number of DPU departments is 43 including:

- 1- Accounting
- 2- Animal Resources
- 3- Building and Construction
- 4- Business Administration
- 5- Community Health (Diploma & BSc)
- 6- Electrical Power
- 7- Finance and Accounting Technology (BSc)
- 8- Highways and Bridges Engineering (BSc)
- 9- Horticulture (Diploma & BSc)
- 10- Information Systems Management
- 11- Information Technology (Diploma & BSc)
- 12- Journalism
- 13- Marketing Management
- 14- Mechanics
- 15- Medical Laboratory Technology (Diploma & BSc)
- 16- Midwifery
- 17- Nursing
- 18- Petroleum
- 19- Pharmacy
- 20- Prosthodontic Dentistry
- 21- Refrigeration and Air-Conditioning Engineering (Diploma & BSc)
- 22- Roads Construction
- 23- Surveying
- 24- Total Quality Management

### Programs to be considered:

- 1- Environmental Sciences
- 2- Gas and Petrochemical Studies
- 3- Sustainable Energy

### Centers to be Established

- 1- Teaching and Learning Center
- 2- The Agricultural Research and Education Center
- 3- Simulation Center
